

Hardware Refresh Programme

Free Hardware Upgrade with Three Year Maintenance Extension

During these tough economic times, getting the best value for money and driving down costs is critical. The Bloxx Hardware Refresh Programme replaces your current Bloxx hardware with the latest generation of appliances at no additional cost when you renew your maintenance for a further three years – driving down your Total Cost of Ownership **by up to 45%** and ensuring you can take advantage of improvements in hardware performance and enhanced functionality.

BENEFITS

- Significantly reduce your Total Cost of Ownership over time. Unlike other vendors who use a subscription pricing model, Bloxx does not charge you again for a product at the end of three years.
- Save money on ongoing maintenance costs – Bloxx maintenance costs typically rise by about 6% per year. By renewing your maintenance for a further three years you will lock down your maintenance costs.
- Flexible timing - renew your maintenance at any time during your existing agreement to take advantage of current pricing and save even more.
- Keep your filtering up to date – Bloxx typically releases new core product functionality on a quarterly basis. Renewing for a further three years allows you to receive these at enhancements at no additional cost.
- Receive brand new hardware with upgraded CPU, discs and memory allowing you take advantage of advances in technology.
- Peace of Mind – by renewing your maintenance for a further three years you will continue to benefit from our Next Day Replacement Warranty.
